Thank you for reading  
the Casio 2002 Environmental Report.

Much effort went into giving you a readable and accessible guide to the achievements of Casio Group environmental activities for FY2001, but there is still much room for improvement.

We would like to put readers' valuable insights to work in future Casio Group conservation activities. To that end, we ask that you take a few minutes to answer the questions on the next page side and fax the page to Casio Computer Co., Ltd.'s Quality & Environment Center.

If you are viewing this on our Website, we hope you'll print out the questionnaire on the next page, write in your responses, and send it to us by fax or other means.
