

# Material Balance by Business

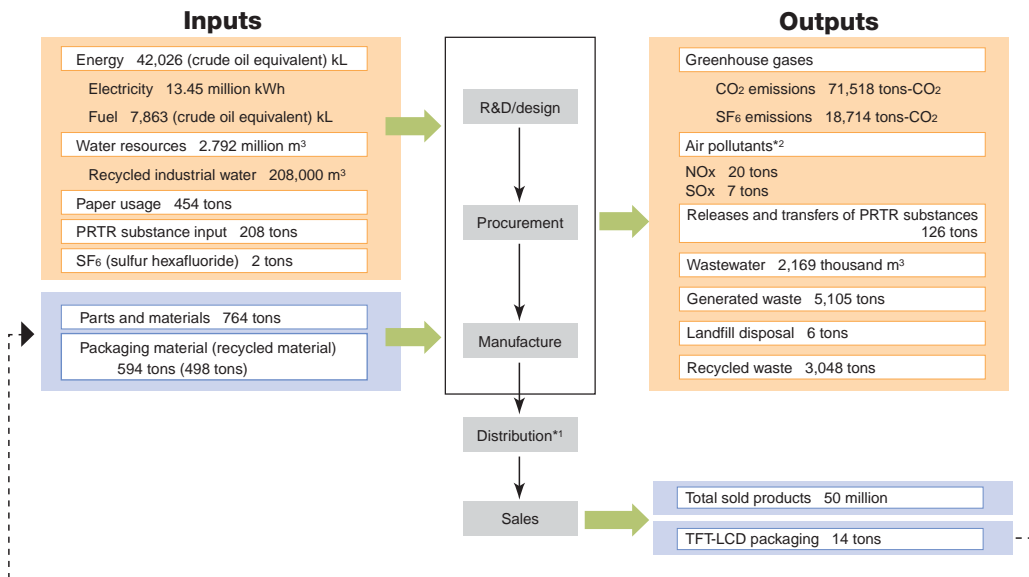

Casio's Electronic Components segment, which operates only in Japan, includes six sites at four companies. Casio's Electronics segment, which operates in and outside Japan, includes 21 sites at 15 companies in Japan and 17 companies outside Japan.

## Material balance of the Electronics segment

\*1: Product distribution is consigned to transportation companies.  
\*2: Ozone depleting substances are not listed because they have been fully phased out.

## Material balance of the Electronic Components segment

Material balance for business sites (orange)  
Material balance for products (blue)
