

Editorial Policy

Casio began publishing the *Environmental Report* in 1999. In 2004, the publication was changed to the *Sustainability Report* with the addition of social and economic content. In 2005, it was renamed the *Corporate Social Responsibility Report*, and included more content on Casio's many efforts to fulfill our corporate responsibilities.

In 2006, the publication was combined with the previously separate *Corporate Profile*, which covered Casio's business areas and main products, and entitled the *Corporate Report*.

The 2008 edition of the *Casio Corporate Report* is designed to present the information that is most important to disclose and other material of primary interest to most stakeholders. In particular, the *Highlights* sections in the *Detailed CSR Report* focus on Casio's distinctive initiatives, looking at two specific

examples, "Supporting teachers who use scientific calculators to improve the mathematical skills of students worldwide," and "Taking on the challenge of being the world's first to adopt F₂ 'clean gas' with a zero global warming factor."

Casio values your opinions about its CSR initiatives, and treats them as guidance for the company's future activities and reports. Please fill out the questionnaire available at the website below to let us know your opinions, impressions and expectations.
