Designed to bring both greater convenience and more enjoyment to people's daily lives, Casio's broad product lineup ranges from digital cameras and electronic dictionaries, to a wide range of calculators for business and educational uses, label printers, as well as electronic musical instruments that can be enjoyed even by beginners.

In Timepieces Category we have a variety of brands such as world-famous G-Shock and Baby-G, as well as Oceanus, a series of full-metal solar-powered radio-controlled watches. By incorporating cutting-edge technologies, we have differentiated our product from conventional watches by making it a wearable mobile terminal.

In addition to cell phones, we offer handy terminals and other mobile terminals, as well as the solutions made possible by these technologies. These portable products offer greater convenience in people's professional and personal lives.

The System Equipment Category supports a wide range of functions for corporate clients in many industries by providing them with the optimal combinations of hardware and application software, such as ADPS Strategic Integrated Personnel System, which supports our corporate clients' personnel strategies. Other important products include high-speed color page printers, cash registers and data projectors.

Our Electronic Components Category specializes in the production of the small-sized STN and TFT LCDs that have become indispensable to all mobile digital appliances. While our subsidiary, Casio Micronics Co., Ltd. undertakes Bump processing and COF (chip-on-film) operations for post processing of LCD driver LSIs.

This category mainly consists of the independent operations of our subsidiaries.
